Web Call Us!

New

Introducing a new service 'Web Call Us!'

*Building Strong Client
Relationships!*

**Call Today to Start
Capturing Sales
from Your Website!**

Its Easy,
just add this
link to your
webpage!

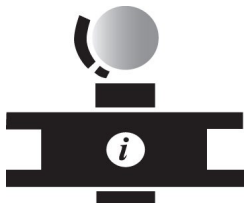

Now, you can enable your web visitors to call you directly from their computer while they are browsing your website.

Capture pass by traffic and give them immediate access to your sales team and your sales process.

Typically, web surfers are looking at many products and competing services. Why not give them an added incentive to call **You** before they even get to your competition's website? IBS introduces the 'Web Call Us!' service. Put a 'Web Call Us!' link/button on your website and when the customer/web surfer clicks on the 'Web Call Us!' link/button, a phone call is placed to your office directly from their computer. Capture sales right from your website. No more losing sales because you forgot to check email. No more wondering if your website is generating sales. Bring those opportunities directly into your sales process.

* Web surfer's computer requires no special equipment just speakers and microphone.

- No more lost sales because someone didn't check the email.
- Capture sales opportunities directly from the website.
- Place link right on your webpage
- Dials directly to your office
- Place web surfers directly into your sales process.
- No special programming required
